

Dansk Selskab for Klinisk Mikrobiologi, Yngre Mikrobiologer og Statens Serum
Institut

indbyder til møde om

Anaerobic infections

Susceptibility testing, resistance epidemiology and treatment

Torsdag d. 31. marts 2005 kl. 16.10 - ca. 18.00

på Statens Serum Institut, Kantinen

Programme:

- 16.10-16.15: **Welcome**
Robert Skov, Danish Society for Clinical Microbiology
- 16.15-17.15: **Susceptibility testing and resistance epidemiology in anaerobes**
Professor Kenneth Aldrigde, PhD, Louisiana State University, USA
- 17.15-17.40: **Surveillance of resistance in *Clostridium difficile* as well as in anaerobes from invasive infections isolated at Rigshospitalet**
Michael Tvede, MD, Rigshospitalet
- 17.40-18.00: **Treatment of synergistic gangrena at Rigshospitalet**
Michael Tvede, MD, Rigshospitalet

Der er modtaget støtte til mødet fra Bayer
