

DANSK SELSKAB FOR KLINISK MIKROBIOLOGI

Program for møde i biofilm-arbejdsgruppen den 25. september 2009

Sted: Konference lokale ved Diagnostisk Center, Rigshospitalet

13.30 Welcome

EPS of biofilms:

13.35 Per Halkjær Nielsen, AAU: "Structure and function of the EPS-matrix in biofilms"

14.05 Morten Simonsen Dueholm (AAU): "Functional microbial amyloids - important EPS-components".

14.35 Liang Yang (DTU/KU): "Extracellular DNA in *Pseudomonas aeruginosa*/ biofilms".

15.05 Pause

Pathogen vs. non-pathogen:

15.30 Mette Burmølle (KU): Monospecies vs. multispecies biofilm

16.00 Irene Dige (AU): Multi-species dental biofilms - Ecological perspectives

16.30 Viktoria Hancock (DTU): Good and bad biofilms in UTI

17.00-17.30 Final discussion

Thomas Bjarnsholt & Niels Høiby

Associate Professor, Ph.D.

University of Copenhagen

Faculty Of Health Sciences

Department of International Health, Immunology and Microbiology

Blegdamsvej 3B,

DK-2200 Copenhagen

Denmark

H:S Rigshospitalet

Department for Clinical Microbiology, afsnit 9301,

Juliane Maries Vej 22,
